

VFC SHIELD

Awareness Through Information Sharing

VFC SHIELD was established to increase community awareness of criminal and terrorism trends and incidents within the Commonwealth, United States and across the world. Information sharing increases preparedness, mitigation and prevention efforts and makes our communities safer.

Realtime Alerts

Alerts are timely SMS based notifications of a significant security or terrorism related event within United States. There are often multiple messages for each incident, as information becomes available and situations evolve.

Sector-Specific Bulletins

TARGETED EMAIL LISTS

Sector Specific Bulletins include security trends, threat environment or mitigation information specific to a member sector. If you sign up for this product, you will receive sector specific information based on the category you indicated during registration.
